### EXAMINER'S COMMENT

This action is responsive to applicants' RCE and IDS filed December 1, 2005 and the IDS filed January 23, 2006. The IDS have been considered and made of record.

The claims have not been amended; therefore the status of the claims remains same as indicated in the Notice of Allowance mailed April 19, 2005. **The status being: claims 1-9, 11-20, 24, 25, 27-49, 51-55 and 92-135 have been cancelled.**

**The remaining claims 70-79, 81 and 86-90 are allowable over the art of record.** An examiner's amendment to the record appears above. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Elizabeth M. Burke on April 1, 2005.

### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art of record fail to teach or suggest a method of delivering a closure device to a patent foramen ovale by delivering a catheter through a right atrium of the heart through a patent foramen and into the left atrium, then deploying a first anchor in the left atrium; deploying a second anchor into the right atrium wherein the deploying step include passing a first end of a flexible elongate member through the second member to connect to the first member. Moving the second member along the flexible member

towards the septum secundum and inflating a balloon in contact with a releasable fixation mechanism connected to the second anchor.

For these reasons the examiner believes the claims are allowable over the art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
